Corporate Team Bonding Opportunities

Create a Company Team

There is no better way to bring your company together than starting a Miles for Moffitt team! Creating your own team is a great opportunity for employee bonding, engagement and team building within your company.

Create a Corporate Code

The company codes allow any business entity to cover all, some or a percentage of the registrations for their companies team members, families and friends.

We would create a unique code for you to share with your group, and then bill the amount due post event. This can be used in conjunction with creating a corporate team.

Volunteer

Volunteering is a great way to get your employees engaged for a good cause. Miles for Moffitt offers group volunteer opportunities like cheer teams, packet pick-up, water stations, kid's activities, and so much more!

To Get Started

Contact Liz Howard at Elizabeth.Howard@Moffitt.org or 813-745-7805 to discuss these team bonding opportunities.
